**Disclaimer**

*The sole responsibility for the content of this report lies with the authors. It does not represent the opinion of the Community. The European Commission is not responsible for any use that may be made of the information contained therein.*

The Advisory Committee was formed of a number of experts not participating in the project. It accompanied and advised the project team regarding the scientific progress and the dissemination of the results. Major (non-confidential) project results, especially deliverables, were communicated first-hand to the Advisory Committee.

The Advisory Committee was invited at least once per year for meetings with the Executive Committee or full meetings, if appropriate, for exchange of opinions and information. The Committee was also asked for giving strong support of the information transfer towards the target groups and key actors during and after the project. The Advisory Committee is given the option to further develop or extend major project results after finalization of the MASSIG project.

Members of the Advisory Committee with important involvement in the project actions:

World Alliance for Decentralized Energy (WADE)	David Sweet	Edinburgh, UK
Evonik New Energies GmbH	Franz-Josef Blug	Saarbrücken, Germany
Institute for Renewable Energy Warsaw	Grzegorz Wisniewski	Warsaw, Poland
oekostrom Vertriebs GmbH	Carina Lackner	Vienna, Austria
in.power GmbH	Josef Werum	Mainz, Germany
European Small Hydropower Association ESHA	Gema San Bruno	Brussels, Belgium
Slovenian Small Hydropower Association ZDMHE	Marko Gospodjinacki	Ljubljana, Slovenia
Nordjysk Elhandel	Jonas Katz	Aalborg, Denmark
Trianel GmbH	Jörg Strese	Aachen, Germany
